### **Company**

#### **KHYBER TRADING COMPANY**

RZ-B 251, Nihal Vihar, Nangoli, New Delhi,  
West Delhi, Delhi-110041, India

### **Reason for ban**

The Certification Body (CB) determined that the organisation had submitted fraudulent input Transaction Certificates. The CB made multiple attempts to contact the organisation; however, no response was received.

An unannounced audit was subsequently conducted, during which it was established that no operational site existed at the address provided by the organisation.

The matter was reviewed by the Management, following which a notice was issued to the organisation regarding a potential certification ban. No response was received from the organisation to this notice. Based on the findings and the absence of any mitigating information, the CB confirmed its recommendation for a certification ban. Accordingly, the Management resolved to impose a certification ban on the organisation for a minimum period of 2 years.

### **Company**

## **Shiv Shakti Ginning and Pressing Factory**

Sr. No. 645, Kadi Kalyanpura Road, Nani Kadi,  
Mehsana – 382715, Gujarat, India

### **Reason for ban**

An investigation was initiated by the Certification Body (CB) following the receipt of a formal complaint. During the course of the investigation, the CB identified major non-compliances relating to the overconsumption of materials certified under another standard within the organisation's operations.

Based on its assessment, the CB concluded that the organisation had intentionally utilised input materials already accounted for within the GOTS supply chain for processing under a different standard, constituting a serious breach of GOTS integrity and traceability requirements.

The matter was reviewed by the Management, following which a notice was issued to the organisation regarding a potential certification ban. The organisation submitted certain documents and explanations in response; however, the CB identified these submissions as conflicting and insufficient to address the findings.

In light of the contradictory information provided and the systemic failures identified during the investigation, the CB confirmed that its recommendation for a certification ban remained unchanged. The Management subsequently resolved to impose a certification ban on the organisation for a minimum period of 2 years.

## **Company**

### **Beriwali Agriable LLP**

Plot No.1131 Kurli, Chaulsukha Kantabanji,  
Balangir KURLI, 767039.  
INDIA

### **Reason for ban**

An investigation was initiated by the Certification Body (CB) following concerns regarding transaction certificate (TC) applications submitted by Beriwali Agriable LLP. The findings indicated that the company had submitted TC requests for quantities significantly exceeding the documented production capacity of its subcontracted ginner, Sheel Fiber. Supporting documents provided were found to be inaccurate.

Despite being given multiple opportunities to respond, the company failed to submit credible evidence either disproving the overcapacity issue or validating Sheel Fiber's production capabilities to the CB. The CB therefore concluded that the discrepancies indicated intentional misrepresentation, constituting a serious violation of certification requirements. As a result, the CB recommended a certification ban for Beriwali Agriable LLP.

The management deliberated the matter and issued a notice to the company regarding potential certification ban. The company responded with certain observations which were then taken up with the CB. After studying the observations, the CB confirmed that no new information was provided that would justify the matter and reiterated their recommendation of a certification ban. The management thereafter decided to constitute a certification ban for a minimum period of 2 years.

#### **Company**

#### **Sheel Fibers**

46, Sheel Fibers, Mauza- Daulatpur, Arvi,  
Wardha, 442201 Maharashtra.  
INDIA

#### **Reason for ban**

An investigation was initiated by the Certification Body (CB) following irregularities observed in transaction certificate (TC) applications associated with Sheel Fibers. Evidence indicated that the volume of material linked to the issued TCs significantly exceeded the facility's documented ginning capacity, suggesting that such quantities could not have been legitimately produced at the unit. The supporting documentation was found to be inaccurate.

Despite being given multiple opportunities to respond, the company failed to provide any credible clarification or supporting evidence to the CB. The lack of engagement and inability to account for the discrepancies raised serious concerns of intentional misrepresentation following which the CB recommended a certification ban.

The management deliberated the matter, issued a notice to the company regarding potential certification ban. The company responded with certain observations which were then taken up with the respective CB. After studying the observations, the CB confirmed that no new information was provided and reiterated their recommendation of a certification ban. The management thereafter decided to constitute a certification ban for a minimum period of 2 years.

Office Building, No.45 Beijing Road, Qianwan  
Free Trade Port Area, Qingdao, 266555  
Shandong,  
CHINA.

#### **Reason for ban**

An investigation was initiated by the Certification Body (CB) after it was found that Qingdao A&M Impex Co. could have used counterfeit input transaction certificates (TCs), which was subsequently confirmed through the issuing CB.

Despite repeated requests for clarification, the company failed to explain the origin of these TCs—whether they were self-fabricated or obtained through a supplier. The organization's lack of cooperation raised serious concerns regarding its reliability and compliance to GOTS requirements. As a result, the CB concluded that the company poses a significant risk to the integrity of the GOTS system and has recommended a certification ban.

The Management deliberated the matter, issued a notice to the company which they failed to respond within the stipulated time. Consequently the management decided to constitute a certification ban for a minimum period of 2 years.

#### **G B COTTON INDUSTRIES**

167/1P,167/2P,167/3, THOL ROAD,  
RANGPURDA, Mehsana, Gujarat, India

### **Reason for ban**

The Certification body found that there was an attempt by a representative of the company's management to improperly influence the certifying body in relation to the issuance of a Transaction Certificate. As a result, the CB has recommended a ban for this client.

The Management deliberated the matter, issued a notice to the company regarding potential certification ban. The company responded with certain observations which were then taken up with the respective CB. After studying the observations, the CB confirmed that no new information was provided and reiterated the recommended certification ban. The management therefore decided to constitute a certification ban for a minimum period of 2 years.

Dwarkesh Cottex, Ghela Somnath Road, Ta

Jasdan, Madhavipur, Rajkot 360050, Gujarat,  
INDIA

#### **Reason for ban**

An investigation was initiated by the Certification Body in response to a complaint, during which findings suggested that the company was engaged in practices inconsistent with the applicable certification standards (regarding NOP scope certificate and transaction certificates).

The Management deliberated the matter, issued a notice to the company which failed to respond within the stipulated time and therefore decided to constitute a certification ban for a minimum period of 2 years.

#### **Reason for ban**

Based on a complaint received, Investigation was conducted by the Certification Body and it was found that the company was involved into practices inconsistent with the applicable certification standards (regarding multiplication of stock and overselling). A certification ban was recommended by the Certification Body.

The Management deliberated the matter, issued a notice to the company regarding potential certification ban. The company responded with certain observations which were then taken up with the respective CB. After studying the observations, the CB confirmed that no new information was provided and reiterated the recommended certification ban. National highway No 8 A 400 KV substation, near  
Chorania behind hotel river  
Surendranagar limbdi  
Gujarat  
363421  
India

#### **Reason for ban**

The Certification Body found evidence that Sustainable Spinning and Commodities PVT Ltd deliberately entered incorrect information and/or misleading documentation and/or inaccurate documentation into the Intertek SourceClear platform to obtain transaction certificates purporting to record sales of organic cotton which are not based in fact. Such activity constitutes a violation of applicable certification or legal standards.

The Management deliberated the matter, issued a notice to the company regarding potential certification ban. The company responded with certain observations which were then taken up with the respective CB. After studying the observations, the CB confirmed that no new information was provided and reiterated the recommended certification ban. The management therefore decided to constitute a certification ban for a minimum period of 2 years.

## **Reason for ban**

Based on routine review by the Global Standard Integrity unit, discrepancies were observed in some documentation and an investigation was carried out by the company's Certification Body. The CB

found evidence of the company using fake shipping companies to show transportation of goods and defrauding the GOTS system. Investigations revealed that the shipping company did not exist, and no material movement actually took place. Based on the facts despite the company not being currently certified, the Certification Body withdrew the certification in August 2024 and recommended a certification ban on this company.

The Management deliberated the matter, issued a notice to the company which failed to respond within the stipulated time and therefore decided to constitute a certification ban for a minimum period of 2 years.

Turkey

**Reason for ban**

The company submitted 35 fake transaction certificates for authentication. The certification body concerned conducted an investigation, and it was found that TCs were manipulated from drafts provided to the client and were not issued by GSCS. Following due process, the CB withdrew certification in November 2024 and recommended a certification ban.

The Management deliberated the matter, issued a notice to the company which failed to respond within the stipulated time and therefore decided to constitute a certification ban for a minimum period of 2 years.

### **Reason for ban**

Certification was obtained by misrepresentation, concealing important information about legality and the lack of official permissions to operate as well as earlier attempt at being certified. There is strong suspicion that the operation was a front or shell for the already banned company Dynamic Overseas which is apparently operated by the owner's spouse. GOTS therefore institutes a certification ban on RS Enterprises for a period of 2 years. This ban will also valid for any operation owned and/or operated by Atul Jain and / or Anju Jain.

### **Reason for ban**

Based on a received complaint about alleged forged Transaction Certificates, this company was investigated by their Certification Body. Investigations found that the company had falsified transportation documents and failed to provide supporting documents required to verify the physical movement of goods mentioned in TCs to their stated buyers. The CB strongly believes that the concerned buyers of this fake material could be involved in the fraud.

The CB suspended the company and withdrew their GOTS Certification.

After studying the case the GOTS Management felt it was necessary to impose a certification ban on this company for 2 years.

The Management also decided that the buyers in this case should also be banned from certification for a period of 2 years. (See below\*\*)

## Reason for ban

During the investigation of Uma Exports fraud, it was discovered by the Certification Body that this company who was the stated buyer of Raj Agro in a separate fraud investigation case (see ban entry in this table below) had the same address as the company Qingdao Donghengmao (see above) and a similar modus operandi was used.

It was further discovered that Company chops (seals / rubber stamps) used on relevant documentation in both cases were the same. It was therefore concluded by the Certification Body that both companies are the same but with differing names. This information was shared with the GOTS Management.

The Management deliberated the issue and took a decision that such a determination by the CB was indeed valid and thereafter decided to impose a certification ban on this company for a period of 2 years.
